

BSRC Inter-Club Match Report - 10th October 2015.

Only 7 teams this time, but all the usual Clubs were represented apart from Addlestone who had allowed two key team members to slide off on holiday to the 'dark side' (Scotland). Due to a communications failure, only two Old Stagers turned up and so joined forces with the BSRC ROs team which was itself slightly depleted. Nevertheless, at 32, there was almost as many shooters as usual and a solid attendance. All the ranges worked perfectly all day so big respect to the Monday Squad and all other unsung heroes who quietly make this happen. Only one Boar range was used but the Baxter (10 slow runs and 10 fast runs) was still shot due to the reduced entry.

The BDS stalked their way into first place with a decent 982.5 followed by Aldershot RPC who claimed second place despite slipping back from their May 2015 peak of 933.5. Not their best score ever but Chelmsford's 858 was enough to get them onto the podium for the first time since October 2013.

As regards the average team scores: the Deer was up from 236 to 252; Boar up from 172 to 180; Stalkers' Test up from 263 to 269; 10m Running Target down from 155 to 141. The overall effect was an increase in the average team aggregate score from 826 in May to 841.

The full team results were, in order:

NB: Deer scores are doubled and Boar scores halved to roughly equalize the HPS's. The scores shown are those of the best (aggregate) or only three in each team.

The top three individual scores (HPS = 420) were 376 (Alan Harvey, BDS – makes a change from Terry Ord!), 359.5 (Darren Cottee, Chelmsford) and 342.5 (Steve Wallis, BDS). In case you were wondering how well you did as an individual, the average scores for the Deer (doubled), Boar (halved), Stalkers' Test and 10m air rifle were 73, 52, 87 and 41 respectively, giving an average individual aggregate score of 253.

Huge thanks to John Rossiter and Adam Walsh from Addlestone who attended to honour their BBQ duty (winning team cooks lunch at the next match - BDS please note for May 2016) despite not being able to enter a team this time. Grateful thanks also to Darren Cottee and Steve Wallis who helped out during the day with setting up and/or ROing. Alistair Bullen was indispensable as usual and the RO's team was joined by Amy Breckell who, despite only being a Provisional Member, ran the Deer all day; the Club should make this a requirement!
